It is a very interesting and useful paper, and one that should be read by every farmer in the State.

A complete and comprehensive report, which has been reviewed under the direction of the Board. It contains the location and name of every railroad operating in the State, and the names and location of every railroad station.

Nothing Strange. Because people will travel by the most "pleasant" route, it is not strange that the railroad companies are so successful. It is a very interesting and useful paper, and one that should be read by every farmer in the State.
